

# STAINLESS-STEEL SUPERSEALER SS2-WD WASHDOWN CONTINUOUS ROTARY HOT-AIR SEALER

## A washdown sealer to keep up with strict cleaning standards

The Supersealer SS2 Washdown Hot Air Sealer is available in an IP65 or IP69K rated bag sealer. IP65 rated bag sealers can be washed down with garden hose pressure only. Our IP69K bag sealer or system can handle the demands of aggressive washdown. By using ambient air to seal the bag, there is no requirements for compressed air. The Supersealer is a low maintenance machine and provides an outstanding return on investment along with the many years of operation.

## High-speed, great seals

- HOT-AIR SEALING TECHNOLOGY
- OPTIMUM SEAL QUALITY
- WASHDOWN ENVIRONMENT ENABLED
- ADJUSTABLE MOTORIZED PEDESTAL
- CUSTOMIZED FOR EACH APPLICATION

## TECHNICAL SPECIFICATIONS:

|                          |                                                                                      |
|--------------------------|--------------------------------------------------------------------------------------|
| Bag size range:          | All bag sizes                                                                        |
| Bag material:            | Heat sealable materials up to 10 mils                                                |
| Speed:                   | Up to 80 ft/min (24.4 m/min)                                                         |
| Machine handling:        | Right to Left, or Left to Right                                                      |
| Seal wheel width:        | 1/4" (6mm) standard<br>3/8" (9mm) optional                                           |
| Electrical requirements: | 110VAC, 1 PH, 60 Hz, 10 AMP or<br>220VAC, 1 PH, 50 Hz, 7 AMP<br>CE Marked            |
| Pneumatic requirements:  | Not required on standard config.<br>Required with optional Jet Flow<br>Trim remover. |

## FEATURES

## BENEFITS

|                                                |                                                   |
|------------------------------------------------|---------------------------------------------------|
| Hot-air sealing technology:                    | Optimum seal quality with low maintenance.        |
| Variable speed:                                | Ease of matching conveyor speeds and flexibility. |
| Closed Loop PID Temperature Control:           | Accurate and consistent sealing temperature.      |
| Integrated design with locking swivel casters: | Mobility and easy access for maintenance.         |

## ADD-ON OPTIONS

- **Bag Top Trimmers:** Rotary blade or stationary blade.
- **Trim Removers:** 3" (76mm), or 5" (127mm).
- **Automatic Infeed:** T-PAK infeed into Supersealer for high-speed conveyors.
- **Air Evacuation/Gas Flush:** Bags sealed with this system extend the shelf life, and/or reduce the volume for packaging.
- **Conveyors:** Designed to meet all application requirements.
- **Bag fillers & loaders:** OKI works with scale, augers, robotics, and automatic bag loader manufacturers to create a seamless packing line.
- **Washdown/Corrosive Sealer:** Match any environment (IP65/IP69K available).
- **Dedusters:** Used in dusty environments to remove dust from seal areas.

## OTHER AVAILABLE MODELS:

### SUPERSEALER SB20-WD WASHDOWN BAND SEALER

SB20-WD (right to left config.) is a washdown sealer with locking casters and motorized pedestal for ease of bag changeover and mobility

### SUPERSEALER WITH SCALE

SB20 (Left to right config.) base with casters and motorized pedestal. Equipped with optional BBY100 Conveyor on a motorized pedestal and Scale.

### SUPERSEALER SB30 HEAVY-DUTY BAND SEALER

SB30 (Left to Right Config.) base with casters & motorized pedestal. Equipped with optional BBY200 Conveyor.

## Now with Touchscreen Display

CONTROL OPERATION, TEMPERATURE, CONVEYOR & SEALER SPEED, AND SAVE RECIPE SETTINGS FOR EASY BAG CHANGEOVER
